Childhood And Nature Design Principles For Educators
The novel opens with Aunt Polly scrounging the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, “Look behind you!” and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects sadly on Tom’s mischievous and how she lets him get away with too much.

Tom comes home at suppertime to find Aunt Polly out crying about Colonel John Blankenship, who should have given her more than a dollar. Tom assures her that he will make it up to her. Tom’s father, Judge Thatcher, is a well-to-do lawyer who spends most of his time in town. Tom’s mother, Polly, is a gentle, kind, and affectionate woman who adores her son and protects him from harm. Tom and his friend Becky Thatcher go off on an adventure that involves hunting for runaway slaves, and Tom is a natural leader and friend to all who come near him.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a “white alley,” a kind of marble. Jim almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his任务.

Tom comes home at supper time, and Aunt Polly, impressed with his schoolwork, asks him about his adventures. During supper, Aunt Polly longs to hear Tom tell her about his adventures and events that have occurred since he was last at school. Tom tells her that he was skipped school that morning and went with Huckleberry Finn to a nearby river and returned home without any harm.

Aunt Polly is satisfied, and Tom goes out to play in the streets until evening. He is very pleased with himself and his adventures.

The history of childhood has been a topic of interest in social history since the highly influential book Centuries of Childhood, published by French historian Philippe Ariès in 1960. He argued “childhood” as a concept was created by modern society. Ariès studied paintings, gravestones, furniture, and school records. He found before the 17th-century, children were represented as mini-adults.

This course addresses the challenges of working with young boys in early childhood programs. After discussing some of the many reasons why young boys are more difficult to care for and educate than young girls, a variety of suggestions are provided to address this dilemma, from overall policy and school-wide program changes to curricula, instruction, and the environment alterations.
